[Intro:]

Naija to the world, uh  
( SperoachBeats )  
Classic  
The Queen to the Motherland  
On the other hand

She said, "Come if you wanna" (Oh)  
I said, "I know myself, I'm gonna wanna"  
Activate undercover, so let me know  
She say, "Nwannem biko"  
Activate if you wanna, let her know it's not the normal size  
This kind thing go make your ship capsize  
So let me know if you wanna ride

She call me brother, I call her sister, too  
Mama so fine, she got like six tattoos  
If she was a city, she be Timbuktu  
My holy ground, baby, I run to  
Brother, I call her sister, too  
Mama so fine, she got like six tattoos  
If she was a city, she be Timbuktu  
My holy ground, baby, I run to  
My holy ground, baby, I run to

I said, "Come if you wanna"  
Got the drink, the marijuana  
Let me know whenever you decide  
Let me know, you put them bitches to the side, yeah  
It's you on my mind, it's you all the time  
You came just in time, you gave me my  
Spit on the mic, something you could bump to  
Get nasty for you every time you come through  
Finish line, who you run to?  
Keep you grounded, I holy ground you  
Ayo, I'm giving medals, I gotta give you the G  
I'm bouncing all on the D  
I just had to give you the V  
Head blowing all in the wind while we cruising, Penelope  
Nigeria to the world, and "Fuck you" to my enemies (Fuck you to my enemies)

She call me brother, I call her sister, too  
Mama so fine, she got like six tattoos  
If she was a city, she be Timbuktu  
My holy ground, baby, I run to  
Brother, I call her sister, too  
Mama so fine, she got like six tattoos  
If she was a city, she be Timbuktu  
My holy ground, baby, I run to  
My holy ground, baby, I run to

Spit on the mic  
Something we could bump to  
Get nasty for you every time you come through  
Finish line, who you run to?  
Keep you ground  
My holy ground, baby, I run to
