So crazy, so crazy {Baby}

Heartbreak after heartbreak, my chest done got numb  
I tried my best, gave you my all, now I'm done  
Summer time looking for a vibe, then we tuck back through the sun  
Two of us with the rose gold  
Going on the road, gone for three month  
I've been holdin' on for too long  
Everything I do is wrong  
Let you tell it but you can't tell me nothin' I'm wrong  
I handle my business the right way, I'm on  
Now people can't even hit me on my phone  
You're just too crazy, I know I'm not wrong  
I'll probably breakdown, sing your favorite song  
Do what I have to, just stay in my zone  
If you're not with with me then leave me alone, yeah

She no be regular (Regular, regular)  
Regular damager (Damager)  
Yes, her body na massacre (Yeah)  
Na she dey make me dey gbasaga  
You got me feeling blue, something like Avatar (Avatar)  
You make me want to sign you, fire my manager (Sheesh)
