

# Didn't Fix Me

Dawes

I went to see a healer  
With that mic strapped to his face  
Talked about which habits to surrender  
And which habits to embrace  
And for the next few days or so I was  
Feeling pretty good  
But it didn't fix me

I even started volunteering  
With the local Sacred Heart  
We feed the homeless on some weekends  
We pick up trash in all the parks  
And even though we're cleaning up  
The whole damn neighborhood  
It didn't fix me  
It didn't fix me like I thought it would

I got that book you recommended  
About the spy in East Berlin  
I really like the way it ended  
How he forgives his friend who turns him in  
And I think I see what you were saying 'bout how  
Technically it should, but  
It didn't fix me  
It didn't fix me like I thought it would

It didn't fix me  
It didn't fix me

I finally got a nomination  
For an award that I don't need  
But I said that out of obligation  
I really spent hours on my speech  
I thanked my biggest inspirations  
And the good folks back in Hollywood  
But it didn't fix me  
It didn't fix me like I thought it would

Didn't fix me  
Didn't fix me

I finally found someone that loves me  
And to her I will be true  
She sees the ways in which I'm ugly  
And loves me for those reasons too  
And even though I'm feeling stronger than I  
Ever thought I could  
It still didn't fix me  
It didn't fix me  
It didn't fix me like I thought it would

Didn't fix me  
Didn't fix me  
Didn't fix me
