I'm sorry that I hurt ya  
I'm sorry that I let you down  
But anything they told ya  
Anything they told ya  
Let me turn it back around  
Got me caught on the camera  
But I left her and walked away  
So you know when I called ya  
Know when I called ya  
This is what I wanted to stay  
I want you to know  
That no one stands between you and me  
You are all I need  
Got three words  
There printed on my heart  
I know it's real  
Can't you see

Cause everybody's headlines  
Saying we are gonna lose the fight  
I know you are hurting don't go listen to their lies  
Cause everybody's headlines  
Saying we are gonna pay the price  
I know we are burning but I wanna survive

Anywhere we are going  
Always got them staring at us  
Anything we are doing  
Anything we are doing  
We don't even know who to trust  
Ya gotta that I'm with ya  
Gotta know that I want you're love  
Cause I'm always gonna hold ya  
Always gonna hold ya  
Always gonna hold ya close  
I want you to know  
That no one stands between you and me  
You are all I need  
Got three words there printed on my heart  
I know it's real  
Can't you see

Cause everybody's headlines  
Saying we are gonna lose the fight  
I know you are hurting don't go listen to their lies  
Cause everybody's headlines  
Saying we are gonna pay the price  
I know we are burning but I wanna survive

Cause everybody's headlines  
We've got to survive  
Cause everybody's headlines  
We've got to survive

Cause everybody's headlines  
Saying we are gonna lose the fight  
I know your hurting don't go listen to their lies

Cause everybody's headlines  
Saying we are gonna pay the price  
I know we're burning but I wanna survive

Cause everybody's headlines  
Saying we are gonna lose the fight  
I know your hurting don't go listen to their lies  
Cause everybody's headlines  
Saying we are gonna pay the price  
I know we're burning but I wanna survive...
