Dawin

Don't be afraid to do the most
That's when I love to hold you close
These butterflies don't ever go
Is that even normal, I don't know but...

As I progress I get hit through the text
By the ones who said that I'll never have next
Tryna reconnect like the WiFi reset
But baby only you get my time 'cause you never left, oh-oh

Got my day, got my day, got my day one
Way too real, way too real to stay away from
Got my day, got my day, got my day one
You and I been on the move like animations

Got my day, got my day, got my day one
Way too real, way too real to stay away from
Got my day, got my day, got my day one
You and I been on the move (We on the move!)

Animation, animation, anima-amination, animation
Animation, animation, anima-amination (Pop pop!)
Animation, animation, anima-amination (Yeah!)
Animation - Uh! Get out my way, we on the move

Coming through, coming through
Get out my way, we on the move
Coming through, coming through
Get out my way, we on the move
Coming through, coming through
Get out my way, we on the move
Coming through, coming through
Get out my way, coming...

Yeah, we've had this thing before any glory
But everyone I knew lived in that toy story
Since I got myself a brand new bigger territory
All of a sudden they don't act like Dory

As I progress I get hit through the text
By the ones who said that I'll never have next
Tryna reconnect like the WiFi reset
But baby only you get my time 'cause you never left

Got my day, got my day, got my day one
Way too real, way too real to stay away from
Got my day, got my day, got my day one
You and I been on the move like animations

Got my day, got my day, got my day one
Way too real, way too real to stay away from
Got my day, got my day, got my day one
You and I been on the move (We on the move!)

Animation, animation, anima-amination, animation
Animation, animation, anima-amination
Animation, animation, anima-amination, animation (Yeah!)

Animation, animation - Uh! Get out my way, we on the move

Coming through, coming through
Get out my way, we on the move
Coming through, coming through
Get out my way, we on the move
Coming through, coming through
Get out my way, we on the move
Coming through, coming through
Get out my way
