

Flexible

Dawin

Tryna get you like ASAP
What I said I won't take back
Body flamin' like a pyro
I don't see a single typo
Lil mama got the sauce

Baddest one in the group (in the group)
Cute face, attitude (attitude)
Came through with them shorts
You got all my support, oh yeah

Baby, you're so flexible
Every move is so sexual
They can't handle how you throw it back
I could keep on watching you flex that
Baby, you're so flexible
Do I fit in your schedule?
They can't handle how you throw it back
Girl, I never seen a thing like that
Flex dat

Need somebody entertaining
I could put up with the waiting
Not Picasso, I'm just sayin'
I'll put you on the wall like a painting
Peep the style that I'm rocking, baby

Mr T with the chains (with the chains)
Cartier on the frames (on the frames)
Took 'em off just for you (you)
'Cause I need a better view, oh yeah

Baby, you're so flexible
Every move is so sexual
They can't handle how you throw it back
I could keep on watching you flex that
Baby, you're so flexible
Do I fit in your schedule?
They can't handle how you throw it back
Girl, I never seen a thing like that
Flex dat

Hood thing, booty soft like Play-Doh
Whole block looking at her like it's J-Lo
Got that body working like it's on a pay roll
I know we could get closer if you say so
Yeah, I made my presence felt when I landed
Baby, that's why you turned to a spandex
I can see you in some daisy dukes flexing
I don't see a single flaw, imperfection

I don't mean to brag but I spent some stacks
On a Louis bag and a Cadillac
Those don't blow my mind like you do
When you reach down and touch your shoes
I seen you on the wall Supercharge like a Tesla
My reaction is so extra

'Cause you do it like you 'bout to play a sport
Got a skill that nobody can ignore

Baby, you're so flexible
Every move is so sexual
They can't handle how you throw it back
I could keep on watching you flex that
Baby, you're so flexible
Do I fit in your schedule?
They can't handle how you throw it back
Girl, I never seen a thing like that
Flex dat

Keep flexin' that, yeah
