

Go Off

Dawin

You got the vibe I'm feelin'
And that's what I've been needin'
Cause that's what I believe in, oh
And I met you for a reason, oh

No, don't listen to anybody
Who says that you gotta change
You already got that magic
And that's what blows me away
Don't listen to anybody
Who says that you gotta change
You already got that magic
Hold up! I wanna see you go off

Give me two steps to left
Give me two steps to right
Spin around one time
Reach for the sky and...
Go oh off with it
Go off, go off girl

I saw your hypnotic eyes
Now, I'm so hypnotized
I'm always checking you out
But I just love what's inside, hey!
I would treasure you in no time
Baby, cause your heart is a goldmine
Wanna give you good times and the whole nine
We could start right now, baby

Showtime
Give me two steps to left
Give me two steps to right
Spin around one time
Reach for the sky and...
Go oh off with it
Go off, go oh off with it
Go off, go oh off with it
Go off, go oh off with it

You got the vibe I'm feelin'
And that's what I've been needin'
Cause that's what I believe in
And I met you for a reason

No, don't listen to anybody
Who says that you gotta change
You already got that magic
And that's what blows me away
Don't listen to anybody
Who says that you gotta change
You already got that magic
Hold up! I wanna see you go off

Give me two steps to left
Give me two steps to right
Spin around one time
Reach for the sky and...
Go oh off with it
Go off, go off girl

I know you might push away
Or maybe push it on me
But girl, whatever it takes
Closer is what we should be, hey!
I would treasure you in no time
Baby, cause your heart is a goldmine
Wanna give you good times and the whole nine
We could start right now, baby

Showtime
Give me two steps to left
Give me two steps to right
Spin around one time
Reach for the sky and...
Go oh off with it
Go off, go oh off with it
Go off, go oh off with it
Go off, go oh off with it
Go off
Go off
