

Hypnosis

Dawin

I can't even explain how you make me feel better
Finding someone like you really took me forever
And I gotta keep it real on the daily
I was not feeling the vibe from these ladies
To my left and to my right I had a sidepiece
But they never had potential to be wifey

I cut everyone for you baby
'Cause you're the only one that make me feel wavy
These girls just call me daddy 'cause they see me winning
I'll always call you mami 'cause you're something different

So different, I notice
I'm under your hypnosis
Them other girls
Never gonna get these roses
So different, I notice
I'm under your hypnosis
Them other girls
Never gonna get these roses

I can tell that you ain't only after my wallet
You be reaching for something else next to my pocket, yeah
And I can't mess with no one else, they be shady
You the only one that care about my safety
And I had a crazy phase where I cared less
[?] careless

I cut everyone for you baby
'Cause you're the only one that make me feel wavy
These girls just call me daddy 'cause they see me winning
I'll always call you mami 'cause you're something different

So different, I notice
I'm under your hypnosis
Them other girls
Never gonna get these roses
So different, I notice
I'm under your hypnosis
Them other girls
Never gonna get these roses

Caught a vibe, now I feel alive
Always felt that you were my type
Love to take you out to the hotspot
While your body [?] you a hotshot
I imagine us by the waterfall
Looking so clean, sipping hella rum
This the vibe I haven't had with anyone
We doing it well and it's just begun

I cut everyone for you baby
'Cause you're the only one that make me feel wavy
These girls just call me daddy 'cause they see me winning
I'll always call you mami 'cause you're something different

So different, I notice

I 'm under your hypnosis
Them other girls
Never gonna get these roses
So different, I notice
I 'm under your hypnosis
Them other girls
Never gonna get these roses
