

Learned My Lesson

Dawin

I understand your worries
Your heart used to be in a hurry
To find somebody that really loves you back
But all those guys would show that they don't wanna last
It's been a crazy journey
The ones I chased would hurt me
Robotic we became, these feelings ain't the same
Now we messing round to numb away the pain

You let me press a button to your fountain
'Cause you and I got so much in common
It wasn't hard to choose the safest option
'Cause we got heartbroken too often
I let you come over in the nighttime
So you could treat my body like a timeline
You want a roller coaster, you can ride mine
That rough city's on yours and my mind

I learned my lesson, just want your body
In my possession, I know that you copy
I learned my lesson, you want my body
In your possession, you know that I copy

You and I are never nervous
'Cause this situation won't hurt us
All we focus on is touching all night long
Not being attached we cannot go wrong
We lost the faith that we once had
And we don't believe it'll come back
Sex was meant for later but we put it first
'Cause we find remedy when we take off our shirts

You let me press a button to your fountain
'Cause you and I got so much in common
It wasn't hard to choose the safest option
'Cause we got heartbroken too often
I let you come over in the nighttime
So you could treat my body like a timeline
You want a roller coaster, you can ride mine
That rough city's on yours and my mind

I learned my lesson, just want your body
In my possession, I know that you copy
I learned my lesson, you want my body
In your possession, you know that I copy

King sized mattress in my palace
Let's go practice, come put it down for a savage
I'll teach Spanish, private class
Won't be dramatic, whoa

I learned my lesson, just want your body
In my possession, I know that you copy
I learned my lesson, you want my body
In your possession, you know that I copy
