

Pepper Spray

Dawin

I don't back down even if they try to put me out, out
Had the whole crowd sayin' I ain't gon' make it now, eh
They can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains?
Can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains? Eh
I don't back down even if they try to put me out, out, eh
This the hall of flames and I came to get real loud, eh, eh
They can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains?
Can't see my vision, can't see I'm winnin'
Oh lord, they don't know I go zero to a hundred, woo

I go...

Oh lord, tell me did you pepper spray these villains? Yeah
Tell me, tell me did you pepper spray these villains?

Usually I'm lowkey but I'ma speak up
This how mad yo Moses will sound through the speakers
Had some non-believers tryna team up
Just to get a piece of price I dream of
But my life is an album, don't need a feature
Cause I'm droppin' Picassos and Mona Lisas
Got the type of art that could put a smile on Jesus
But they tryna take my life like we're in the theatres, no, no

I don't back down even if they try to put me out, out
Had the whole crowd sayin' I ain't gon' make it now, eh
They can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains?
Can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains? Eh
I don't back down even if they try to put me out, out, eh
This the hall of flames and I came to get real loud, eh, eh
They can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains?
Can't see my vision, can't see I'm winnin'
Oh lord, they don't know I go zero to a hundred, woo

I go...

Oh lord, tell me did you pepper spray these villains? Yeah
Tell me, tell me did you pepper spray these villains?

I will never have a problem survivin'
Pockets lookin' green like tropical islands
Villains camouflage their evil with kindness
To catch you off guard and run with your diamonds
But I keep makin' moves, has leavin' 'em speechless
It's like D.A.W. got telekinesis
No, they don't see the truth, they're seein' my weakness
They wanna take my power and keep it a secret

No though, I don't back down even if they try to put me out, out
Had the whole crowd sayin' I ain't gon' make it now, eh
They can't see my vision, can't see I'm winnin'
Oh lord, tell me did you pepper spray these villains?
Can't see my vision, can't see I'm winnin'

Oh lord, tell me did you pepper spray these villains?
