PTSD

Dawin

Overthinking
This shit way too toxic
I can tell if you are bein' honest
Maybe you keep costumes in your closet
Wonder, you're human, the natural robotic

I can't stand when our love is on my way too much
Can't stand when there's someone who doesn't give a fuck
It's a gift and a curse when you fall in love
You remind me of my past and that shit was rough

PTSD got me messed up
PTSD got me fucked up
PTSD, I had enough of
Yeah, I need to refillin' my cup

I've been fallin
You just out here rollin'
Way too anxious
Why you out there smiling?
Number, number
Which number you're diallin'?
Waitin' for you but it feels like you haven't

I can't stand when our love is on my way too much
Can't stand when there's someone who doesn't give a fuck
It's a gift and a curse when you fall in love
You remind me of my past and that shit was rough

PTSD got me messed up
PTSD got me fucked up
PTSD, I had enough of
Yeah, I need to refillin' my cup
