

Substitute

Dawin

You got the angel on your left shoulder telling you to slow it down
You got the devil on your right shoulder telling you to let me hit it right
now

Baby girl, send the addy to my phone
Ima make sure you're not alone
You can't get homeboy to watch his tone
Think you gotta stay but you don't

You got a man that ain't treating you right
So baby, let me substitute him tonight
You got a man that ain't hitting it right
So baby, let me substitute him tonight
And I just saw your story and you put him on blast
Catch me when you need me Ima pull up real fast
You got a man that ain't treating you right
So baby, let me substitute him, aye

I be like mami
Do you copy?
Can I come through?
ASAP Rocky
Flip ya mood 360 like my bankroll
We could do 120 in the Lambo, oouu
Girl, ya man been hella sloppy
Oh, you let me in and now you got me
Asking for them the pics paparazzi
Oh, you tempted to give me that toppy

You got the angel on your left shoulder telling you to slow it down
You got the devil on your right shoulder telling you to let me hit it right
now

Baby girl, send the addy to my phone
Ima make sure you're not alone
You can't get homeboy to watch his tone
Think you gotta stay but you don't

You got a man that ain't treating you right
So baby, let me substitute him tonight
You got a man that ain't hitting it right
So baby, let me substitute him tonight
And I just saw your story and you put him on blast
Catch me when you need me Ima pull up real fast
You got a man that ain't treating you right
So baby, let me substitute him, aye

He give you fractions
Of compassion
Said he love you
But he cappin'
It's confidential everything we texting
In ya wet dreams you said that I'm flexing
You already know I got ideas
I could pull up to you with tequila
Turn the living room to an arena
You could be my naked ballerina

You got a man that ain't treating you right

So baby, let me substitute him tonight
You got a man that ain't hitting it right
So baby, let me substitute him tonight
And I just saw your story and you put him on blast
Catch me when you need me Ima pull up real fast
You got a man that ain't treating you right
So baby, let me substitute him tonight
