

Title

Dawin

I really can't tell if it's true
You're telling me now that you're through
You pray to God every night that you get over me, over me
'Cause you don't like to wait to be cuffed
But you been waiting for me to step up
You're wanting more than to be treated like royalty

I tried to fall back but it didn't feel right
'Cause I have better days when you're here by my side
I am indecisive, that's how I'm designed
It took me a long time but I made up my mind
We don't know where we are and it's causing this fight
You gave me the power to make it alright
I made up my mind and we're gonna be fine, yeah

I'll put a title on us, on us, on us
We shouldn't be so in love if you and I aren't cuffed
I'll put a title on us, on us, on us
You say my love your drug, so, baby, I'll be your plug

[?] was all there
I was really being unfair
A long term thing wasn't really my destiny, destiny
Can't deny that we have a bond
But I been wasting your time in this [?]
And I don't want us to ever be enemies

I tried to fall back but it didn't feel right
'Cause I have better days when you're here by my side
I am indecisive, that's how I'm designed
It took me a long time but I made up my mind
We don't know where we are and it's causing this fight
You gave me the power to make it alright
I made up my mind and we're gonna be fine, yeah

I'll put a title on us, on us, on us
We shouldn't be so in love if you and I aren't cuffed
I'll put a title on us, on us, on us
You say my love your drug, so, baby, I'll be your plug

Three, two, one on the timer
Time was up and you gave me a reminder
You were about to fall back like a recliner
And you ain't give a damn if [?]
Simple, yeah, it's simple
You don't wanna be around me, single
Crystal [?] crystal
Counting on me to make it official

Title on us like we champions
I was held up with distractions
Tryna hold you from behind while we dancing
Oh, future with you I imagine
Woke up from a sleep
Knowing you wanna be
Taken seriously

I'll put a title on us, on us, on us
We shouldn't be so in love if you and I aren't cuffed
I'll put a title on us, on us, on us
You say my love your drug, so, baby, I'll be your plug

I'll put a title on us, on us, on us
We shouldn't be so in love if you and I aren't cuffed
I'll put a title on us, on us, on us
You say my love your drug, so, baby, I'll be your plug
