

I Am Nephilim

Dawn of Ashes

Exoskeleton washed within the abyss of immortality
Cleansing all weaknesses from failures of a misguided light
Those that beg are for those that suffer
For those that fail are the ones that surrender

Seed of Prometheus
An indestructible force
Engineering fire
To burn away the rust of life

Here are eyes without confessions
Here is flesh placed onto dry up bones
A gift of signs with endless powers
I AM NEPHILIM!

WE'RE IN FUCKING GOD FORM!

Exoskeleton washed within the abyss of immortality
Cleansing all weaknesses from failures of a misguided light
Believe in the Magick that was passed down by giants
With an antidote that cures the fragile ascension

Here is guidance without an orthodox
Here is collision within creation
The gift of darkness in a solemn oath
I AM NEPHILIM!

NEPHILIM!
NEPHILIM!
NEPHILIM!
NEPHILIM!
NEPHILIM!
NEPHILIM!
