

# Broken Record

Dawn Richard

Please believe me when I say this  
I can't be just like the image you created  
I'm more woman than the females that you dated  
That ain't ego that's just me talking  
On the flip side, noo  
I ain't gon' never want no other man  
The problem is that you know where my heart stands  
You use it against me  
Because you know me  
And we keep going through the same song

Im sorry excuse me but I just think that I heard this  
You keep on complaining you're repeating the same verses  
You-you-you-you keep on complaining you're repeating the same verses

You sound like a broken record  
Sound like a broken record [x2]  
Sound like a broken record [x2]  
Sound like a broken record  
Sound like a broken record  
I'm sorry excuse me but I just think that I heard this  
You keep on complaining you're repeating the same verses  
Sound like a broken record [x2]  
Oh, o-o-oh, oh  
Sound like a broken record

Excuse me if our love feels dated  
Chivalry had gone and left with my patience  
My anger just went up and reached new limits  
That ain't lies, that's just her talking  
On the flip side, noo  
I'm gon' keep running back, you understand?  
I don't wanna have to start all over again  
You use it against me because you know me  
And we keep going through the same song

I'm sorry excuse me but I just think that I heard this  
You keep on complaining you're repeating the same verses  
Sound like a broken record [x2]  
Sound like a broken record  
I'm sorry excuse me but I just think that I heard this  
You keep on complaining you're repeating the same verses  
Sound like a broken record [x2]  
Sound like a broken record

Why we can't be on the same page boy?  
You keep on asking me what we're fighting for  
Babe lets get through this  
My heart is hurting  
Ohhhh we sound like a broken record

Sound like a broken record [x2]  
Sound like a broken record [x2]  
Sound like a broken record  
Sound like a broken record  
I'm sorry excuse me but I just think that I heard this  
You keep on complaining you're repeating the same verses

Sound like a broken record [x4]
