

# Bulletproof

Dawn Richard

A star fell from your eyes  
And landed in my heart  
It caused a spark we lit the dark  
A fire burned on my lips  
And it caused a scar  
We'll never part you left your mark

Don't hate me cause I'm free  
Ain't nothing touching me  
These walls I'll run through for he  
Cause I got you and you got me

I'm bulletproof cause I love you  
Your storm fell from my heart  
And made the whole world love  
Its passing off just to give up  
And when the world just fades and night turns into dark  
We'll light your hearts we'll light your hearts  
Bullets hit me but I don't bleed  
You may hate me but I'm still free  
I'm your air when its time to breath  
Cause I got you and you got me  
I'm bulletproof cause I love you
