

Abyss

DAWN

She's a flower in the darkest of nights
Her eyes, her smile, such a perfect disguise
From head to toe, I love her every scar
Together, we are fallin'
Oh, we are really somethin', yeah
She's got demons dancin' inside her head
Her tears cut me, but I never get scared
Inside and out I even love her doubts
Together, we are fallin'
Oh, we are really somethin', yeah

We'll jump off the ledge
If that's what she needs
We'll dive into darkness, to the abyss
Hold my hands, look in my eyes
I'm ready now, see us fly, we are gone

Beneath the surface where it's deeper
Than the secrets you and I share
I'll kiss you one more time, we'll be fine pain or despair
From head to toe, I love your every scar, yeah
Heaven or hell, I'll be right there with you
Won't let you spiral down all alone, I'm goin' with you
Forever intertwined, we are one I'm here with you
Inside and out, I even love your doubts, yeah
Heaven or hell, I'll be right there with you

My head's in the clouds like every night with you, babe, can you see?
You can kick and shove me but don't ever fall without me
Until the end, that's the way I'll love you
I'm that crazy 'bout you, I'll find you every life
It's like déjà vu, people think, I am some fool
I don't blame 'em it's true, my whole purpose is you
So beautiful and you can cry (And you can cry)
Wander to the void now (Wander all we need, yeah)

Beneath the surface where it's deeper
Than the secrets you and I share
I'll kiss you one more time, we'll be fine pain or despair
From head to toe, I love your every scar, yeah
Heaven or hell, I'll be right there with you
Won't let you spiral down all alone, I'm goin' with you
Forever intertwined, we are one I'm here with you
Inside and out, I even love your doubts, yeah
Heaven or hell, I'll be right there with you

Ooh-oooh, ooh
Ooh-oooh, ooh
Ooh-oooh, I'll be right there with you
I'll be right there with you
Heaven or hell
