If I hadn't met you then
Where we'll be now?
Met you when you were most beautiful
I could've stand anything no matter what others said

Even if I have to let go a lot for you shining
I'm fine

You know you were my everything
I was happy enough to forget myself
It's okay if I lose everything
As long as I can see you dazzling

It was as beautiful as a spring day
You and I like a picture
Can't turn back the time
In a scene engraved
Even the shadow was shining

Even if our shining memories disappear
I'm fine

You know you were my everything
I was happy enough to forget myself
It's okay if I lose everything
As long as I can see you dazzling

I can see you in the dark
Shining on me
I met you at the end
Like nothing has happened
I'm okay

Thank you, you were everything
I was happy like the world was mine
It's okay if I lose everything
As long as I can see you dazzling
