

Fallin'

DAWN

I been waiting a long, long time
For someone to catch my eye
That was right when you
Came out of the blue and set my heart on fire
Like a comet in the night sky
You brightened up my life
And I don't wanna miss this
Nah, I don't wanna miss this, yeah

I would never try and change, yeah
Love it just the way you are
Never thought I'd see an angel
Picking up a fallen star
Yeah, you got everything that I came for

Ooh, I'm falling if you're what I fall into
I'm leaning, every time I think of you
And all I wanna do is what you wanna do
Don't need no a parachute 'cause I'm all in
Ooh, I'm falling if you're what I fall into
I'm dreaming, this could be a dream come true
And all I wanna do is what you wanna do
I only wanna fall if you're what I fall into

Yeah
If I die tomorrow, I'ma spend my last day with you (Yeah)
If I had another chance, baby, there's nothing I wouldn't do
Just like the gravity
Girl, you got me fallin'
The way you look so flawless, mm-mm
Every time I mess it up, ruin every good that we had (That we had)
You stuck around and still got my back
What I do in the past life? Let me ask right
It almost feel wrong that you stay on my side (Side)
We been through the good times, we been through the pain
Start my life over, still won't change a thing
This feeling I have, I can't hide it from you
The more I deny, I keep falling for you

Ooh, I'm falling if you're what I fall into
I'm leaning, every time I think of you
And all I wanna do is what you wanna do
Don't need no a parachute 'cause I'm all in
Ooh, I'm falling if you're what I fall into
I'm dreaming, this could be a dream come true
And all I wanna do is what you wanna do
I only wanna fall if you're what I fall into

Oh-oh, you got me fallin'
Oh-oh, you got me fallin' for you
Oh-oh, you got me fallin'
Oh-oh, you got me fallin' for you
Oh-oh, you got me fallin'
Oh-oh, you got me fallin' for you
Oh-oh, you got me fallin'
Oh-oh, you got me fallin' for you
