

Shadow and Pain

Dawnless

Until you get caught
You're sleeping tight, you laugh, you play
You'd never imagine what could hide in corners

Now you smile but who can tell
If it will last and until when
Don't you know how this could end
'Cuz of the madness of our race

Men lost their minds
When children's dreams turn to nightmares
Horrors of our time
It's worse that if they were dead

You're nowhere to be found
Maybe you're somewhere underground
Locked in a cell

Only shadow and pain

We're all lookin' for you...

But as each time it's all in vain

What a child has to go through...

'Cuz of the madness of our race

Men lost their minds
When children's dreams turn to nightmares
Horrors of our time
It's worse that if they were dead
