

All We Got

Dax

This is all we got
A dollar and a dream, this is all we bought
To pop, pop with the team after all we cop
The 4 5 is the dream and we dream a lot
So talk shit nigga
This is all we got
A dollar and a dream, this is all we bought
To pop, pop with the team after all we cop
The 4 5 is the dream and we dream a lot
So talk shit nigga

This is all we got, no plan B you will C
How I seek destroy, yes all D's
Kill every beat pop pop, it's all Es
Get a "A", no F, remain a straight G
I'm the alpha, bet
Beat is like a bitch when I fuck wet no sweat, break her back
Bend her over, slap her ass, pull her weave, take her tracks, ya
She fucking like it like that
So I'mma lean with it, rock with it
Only option, we are not kidding
Just started, all in it, we will not finish
Keep grinding, all dubs till we all winning
Me and K.A.A.N in it, spread to every continent
Not cocky nigga, confident
No nigga not consciousness
I'm speaking like I got a doctorate
So let a nigga try to doctor it
He can't, it's mine, it's mine
Better with age so we stage like the finest wine
'Cause I could fade off a play in a hoopers prime
I'm up next, all net, deserve to shine
I'm braggadocious, far but the closest
Split with the game but claim just like I'm Moses
Chillin' with my main, my side don't get posted
Ghost with the fame, you lames was not chosen
You frozen stop holding, ketchup
It must hurt you, must heard that I'm on top and you playing backup
Clearly never a matchup
Me and K.A.A.N is shooting, they're saying master
Preaching, they're screaming pastor
Scheming and moving faster
You still reading, we on to the next chapter
Listen, sorta crazy but we hear it a lot
It's just normal to a nigga 'cause it's all that we got

This is all we got
A dollar and a dream, this is all we bought
To pop, pop with the team after all we cop
The 4 5 is the dream and we dream a lot
So talk shit nigga
This is all we got
A dollar and a dream, this is all we bought
To pop, pop with the team after all we cop
The 4 5 is the dream and we dream a lot
So talk shit nigga

And we've been, dreaming since some adolescent youngins
Back when they told us we wasn't nothing
Back when there wasn't an opportunity to change my reality
Every effort given was lost within futility
I couldn't tell you what it means to be free
I've been working like a slave trying to master the beats
The roots is too deep, my black thoughts they're setting
On a quest for love like Illadelphia Legends
I Kick, Push like Lupe, no skateboard
Heating up like butane, you lukewarm
Kick shit like Liu Kang, you've been warned
There's two sides to everybody, I've been torn
The positive and the negative, hope I find peace
The middle ground is the balance, that's what I really need
They speak upon it daily but they never pay attention
Learn a valuable lesson from being something that I'm not
That's closed off and cold with no contact (contact)
I rose from the ground, but I bounce back (bounce back)
I rose but I grew from the concrete with a crooked stem and pedals that don'
t sit right
Living life to the fullest
'Cause it can end quicker than a blink of an eye
And you reflect upon it all, then realize that you are wasting your time
Can't get that back and that's frustrating
Don't worry about it, it's all love baby
You can be anything you wanna be, believe
Never fallin' for the fake shit I see
It's all sick like used needles and I.V's
Clear view like Visine, my mind been moving at a pace most can't keep up wit
h
Peace to the next, with all due respect
I just vent upon these records 'bout things that I can't accept, lawd

This is all we got
A dollar and a dream, this is all we bought
To pop, pop with the team after all we cop
The 4 5 is the dream and we dream a lot
So talk shit nigga
This is all we got
A dollar and a dream, this is all we bought
To pop, pop with the team after all we cop
The 4 5 is the dream and we dream a lot
So talk shit nigga
