

# APOCALYPSE

Dax

I see violence, oh  
And I hear sirens, uh oh oh  
No where to go, no where to run  
They gave me the shot, they took away guns  
Nothing to eat, we can't go to sleep  
We're stuck in our homes, they're flooding the streets  
Everyone watching and glued to their screens  
Misinformation like every week, apocalypse!  
LexNour

This ain't no game, better choose your side and protect your soul  
Devil is lurking, he's looking for victims in power to use and regain his control  
No one to trust, everybody's corrupt  
End of the world really feels like it's close  
Feels like it's Truman and I'm just a person they're watching at home on a evening show  
Fake information and all of it's free  
Dumb politicians, corrupt police  
Tanks and riots, bodies piling, smell of corruption is flooding the streets  
Children are crying, there's nothing to eat  
Left and right, there's no in between  
Who do we trust when it's us against us and we'll do anything just to get a re-tweet?  
2021's no joke boy, you better stay inside, pray to God during these times  
Let me give some advice, at night, stay inside, your life has a price, they will buy  
Everybody's trying to fight, gas prices spiked, no bus, can't walk, we can't drive  
Everybody's on edge, trying to get ahead, so I'm chucking up this peace sign  
Let me get into the real  
They don't care how you feel  
You're just an animal and you're their next meal  
There's no peace  
I pray to God on my knees  
The gates of hell are open, we can all feel that heat  
I remember when everything changed  
When technology went from an aid to the primary poison of all of our brains  
We've been programmed to think that we need it, we slave and we worship it everyday  
And in every way we're becoming the robot they gave us and losing humanities way

I see violence, oh (So much violence I see)  
And I hear sirens, uh oh oh  
No where to go, no where to run  
They gave me the shot, they took away guns  
Nothing to eat, we can't go to sleep  
We're stuck in our homes, they're flooding the streets  
Everyone watching and glued to their screens  
Misinformation like every week, apocalypse!

If you're a soldier stand up, ya know  
Stay 10 toes, look 'em in the face, don't don't don't you fold  
They're watching your moves, I hope that you know  
People are dying because of religion  
Selling sex, selling children

Genocides, waters rise, homicides, missing women  
Rich got richer, what did they do?  
Man they cut out the small business  
Fake statistics, flood the streets with drugs and filled up all the prisons  
They're shifting the energy, you can't see the enemy  
God is returning, they don't got to say it, the climates been telling me  
From the way they're abusing the teachings and pushing religion like it's an  
accessory  
Pick a side, it's the dark or the light, in the scariest times that we've se  
en in a century

I see violence, oh (So much violence I see)  
And I hear sirens, uh oh oh  
No where to go, no where to run  
They gave me the shot, they took away guns  
Nothing to eat, we can't go to sleep  
We're stuck in our homes, they're flooding the streets  
Everyone watching and glued to their screens  
Misinformation like every week, apocalypse!

Put ya' lighters up  
Put ya' lighters up  
Put ya' lighters up, apocalypse!
