# Before We Knew

**Day Wave**

I call you, you're alone
And you believe it's all you want
For you to be afraid
Or save the day, you're far away

Back in the car where I am
Haunting me, haunting me
You in the front remind me of a dream
Where I scream

Car falls on me, wake up
I look away now, I look away now
I feel like tapping out but
I can't let you beat me
I won't go alone

Believe what you see
Something beneath, you better leave
It that real? That's a lot
Thanks a lot for being here

All of the time I beg you
Let me out, sell me out
Everything I like had
Been around, been around

Call you back again and
I don't believe you, I don't believe you
I feel like tapping out but
I can't let you beat me
I won't go alone

Back in the fallout
Even before we knew, we knew
Back in the fallout
All of the times we knew, we knew
(We knew)

It'll never be like those days
They're in the past, they're in the past
It'll never be like those days
They're in the past, they're in the past
