**Day Wave**

Hurry up, hurry up let's go  
I've been tired all along  
This place is bringing me down  
And my feelings are all around  
Don't know how to feel about

You

I know I'm looking around  
I'm out of place in the wrong town  
We won't be done 'til we've had our fun  
But I just want to go home now  
Cause I don't know how to feel about

You
