

I feel your energy  
Feel you right next to me  
Let's make some memories  
Making sure that you remember me  
You, ooh, ooh  
Are my favorite type of therapy  
Ooh, ooh, ooh  
Just keep a hunnid with me  
I feel your energy  
Feel you right next to me  
Let's make some memories  
Making sure that you remember me  
You, ooh, ooh  
Are my favorite type of therapy  
Ooh, ooh, ooh  
Just keep a hunnid with me

I feel your energy, told her to slide  
Book out the B&B, pull up and ride  
I can't do therapy 'less it's your thighs and your waist, give me energy  
Let's run away for a night, make a memory  
I'll take you high, feeling ways that you never been  
Never been, uh-uh  
Lemme just get in between your legs one more time  
Make you forget 'bout that new man when I get inside of ya  
See for yourself if I'm lying, uh  
To tell the truth, I'm really vibing ya  
You can see it in my eyes, you the one I want  
Don't be scared of me  
I can take you to places you never been  
If that boy act like a man, then he better be  
I put them down if they get between us, oh  
Don't do misdemeanors, nah  
Whole lotta felonies, uh  
You'll remember me  
'Cause I feel your energy, ah

I feel your energy  
Feel you right next to me  
Let's make some memories  
Making sure that you remember me  
You, ooh, ooh  
Are my favorite type of therapy  
Ooh, ooh, ooh  
Just keep a hunnid with me  
I feel your energy  
Feel you right next to me  
Let's make some memories  
Making sure that you remember me  
You, ooh, ooh  
Are my favorite type of therapy  
Ooh, ooh, ooh  
Just keep a hunnid with me
