DAY26

Let me run my fingertips
Across your body and your lips
I just need a moment with your body
Promise that you won't forget
What I'm gonna do
When you let me get inside
Catch a vibe with you all night
Ride me like a rocket
Baby, hold tight
Got you vibrating like jacuzzi jets
I'mma give you something that you won't forget

Baby, keep your mind on me
'Cause I got everything you're needing
Breaking your body into pieces
Just to give you some sexual healing

Can I run my fingertips across your sexy lips?
Reading your body like a magazine
I'm tryna get between your pages
Won't be hesitating

To fall deep inside your waterfall
Girl, you bring me back to life
I'm tryna have you reminiscing
Running my fingertips

Across your body and your lips
I just need a moment with your body
Promise that you won't forget
What I'm gonna do
When you let me get inside
Catch a vibe with you all night
Ride me like a rocket
Baby, hold tight
Got you vibrating like jacuzzi jets
I'mma give you something that you won't forget

Just in case, baby, here's a reminder
We got so lost in it, nobody could find us
I had my hand in places
You said you ain't never felt
Touchin' all over, couldn't help myself

Runnin' a marathon to turn you on
Back-to-back like we left the repeat on
I'm so committed to give my all
Your body talkin'
It's tellin' me

To fall deep inside your waterfall
Girl, you bring me back to life

I'm tryna have you reminiscing

Let me run my fingertips
Across your body and your lips

I just need a moment with your body
Promise that you won't forget
What I'm gonna do
When you let me get inside
Catch a vibe with you all night
Ride me like a rocket
Baby, hold tight
Got you vibrating like jacuzzi jets
I'mma give you something that you won't forget, baby

You won't
You won't forget
You won't
You won't forget
You won't
You won't forget

Won't forget
