

Going On

DAY26

Can you feel it?
It's electric
Chemistry between us, no question
Girl, we got it
Never doubt it
That you and I can be the exception
To the rules and choosin'
Fuck a later on, what you doin' right now, girl?
Hope I ain't readin' you wrong
But I'm feelin' something too strong

You and me got something goin' on

No cap'n girl, let's make our way out of here
Top door's locked, don't look like we're making it home
No gassin', girl, I'm wantin' you bad
Baby, I like what we got goin' on
Maybe love and what's goin' on
Tell me you like what we got goin' on
Maybe love and what's goin' on

Ceiling toes point
I said you wouldn't be disappointed
Lovin' all night
Till the mornin'
Disregarding all the warnings

To the rules and choosin'
Fuck a later on, what you doin' right now?
Hope I ain't reading you wrong
But I'm feelin' something too strong

You and me got something goin' on

No cap'n, let's make our way out of here
Top door's locked, don't look like we're making it home
No gassin', girl, I'm wantin' you bad
Baby, I like what we got goin' on
Maybe love and what's goin' on
Tell me you like what we got goin' on
Maybe love and what's goin' on

You and me got something goin' on

No cap'n, let's make our way out of here
Top door's locked, don't look like we're making it home
No gassin', girl, I'm wantin' you bad
Baby, I like what we got goin' on
Maybe love and what's goin' on
Tell me you like what we got goin' on
Maybe love and what's goin' on
