That day that brings out
Memories which I cannot forget
That day was like a warm dream
In the middle of the winter
We left behind a warmth
Above the bench in front of the house
It disappeared without a sound

Good bye
Since yesterday, I
You were frozen in me
Just like that

Never let go
Never let go ah

Till when
You were
Forever within me
Gotta let go
Gotta let go ah

You were here
Winter is gone

The snow that covers my heart
Is melting away
Your warm hands
Are getting colder

The footprints we left behind
I turned around
And it disappeared without a sound

Good bye
Since yesterday, I
You were frozen in me
Just like that
Never let go
Never let go ah

Till when
You were
Forever within me
Gotta let go
Gotta let go ah

I could not let you go and made you tired
I was living in that season
This is over, I know it is the end
I know everything now

You were here
Winter is gone
