Hello there, is anyone there?
Where is
Is there anyone to answer me?
Is anyone there?

You're disappearing, more and more, without a sound
From me, without any reason
Was everything a misunderstanding?
Were we looking at each other in a dream?

Why am I alone?
Among all the people surrounding me
Why am I alone?
I'm all alone, I need someone
I need someone right now

Hello, is anyone there?
Anyone who can accept me?
Is anyone here?

Come to me, without a sound
Hold me, without a reason

Why am I alone?
Among all the people surrounding me
Why am I alone?
I'm all alone, I need someone
I need someone right now

As I am keeping my silence
I've let everyone go
A siren rings in my head
I really don't think this is right

As I am keeping my silence
I've let everyone go
Oh now I got to do something

Why am I alone?
Among all the people surrounding me
Why am I alone?
I'm all alone, I need someone
I need someone right now

I need someone right now
