You are my

I'm the only one in my room
But I can see you
And you're talking to me
I try to think of something else
But my head is growing blank
And I can only draw you out, yeah

Hold onto me
My day that has filled up with you
Is beautiful
Oh you are my day
Baby you're beautiful
Every moment I'm awake
Even the moments that I'm dreaming
Oh you are my day
You are my day

What I want is only you
If you come to me
I'll feel like I have the whole world

Just thinking about you satisfies me Multiple times a day I find myself laughing by myself, so funny

Hold onto me
My day that has filled up with you
Is beautiful
Oh you are my day
Baby you're beautiful
Every moment I'm awake
Even the moments that I'm dreaming
Oh you are my day
You are my day

You are my day
Aw yeah
I said now
You are my day
You are my day
You are my day
You are my

Filled with you
So beautiful
Oh you are my day
Baby you're beautiful
Every moment I'm awake
Even the moments that I'm dreaming
Oh you are my day
You are my day
