

# Bandit

Daya

We were stuck together magnets  
I was bliss and she was passion  
I could see the future right in my hands  
Thought our love was everlasting  
Til the picture started cracking  
I could feel it slipping through me like sand

Didn't see it then cus it hurt so slow  
But now I'm looking back and I should have known

She's a bandit in the night  
She stole my heart  
And left me bleeding in the rear view  
She's got two feet on the gas  
Two eyes ahead, no looking back  
And I can't fill the hole she left in my chest

It's like my hands were tied  
A bit more every night  
But I still never saw it coming way she robbed me blind  
She's a bandit in the night  
She stole my heart  
And left me wondering if I'll ever love again

Got a memory from a movie  
Of a girl who killed for beauty  
Ran the competition down with a knife  
In the end she saw it clear  
Through the bits of broken mirror  
But the damage left her out of her mind

Didn't see it then cus it hurt so slow  
But now I'm looking back and I should have known

She's a bandit in the night  
She stole my heart  
And left me bleeding in the rear view  
She's got two feet on the gas  
Two eyes ahead, no looking back  
And I can't fill the hole she left in my chest

It's like my hands were tied  
A bit more every night  
But I still never saw it coming way she robbed me blind  
She's a bandit in the night  
She stole my heart  
And left me wondering if I'll ever love again

Ever love again  
Ever love again

She's a bandit in the night  
She stole my heart  
And left me wondering if I'll ever love again
