

Demise

Daya

Nothing can save me
From the voices talking in my head
I'm going crazy
I'm gonna love you to my detriment

You know these thoughts are killing me
They're killing me

If only I
Could stop myself ahead of time
Keep my feelings to myself tonight
I could spare a heart and save a life
Cause loving you will be my demise

I'm in danger
You're so hot it's bringing me to tears
And in a way it hurts so good
When you say the things I wanna hear

You know those words are killing me
They're killing me

If only I
Could stop myself ahead of time
Keep my feelings to myself tonight
I could spare a heart and save a life
Cause loving you will be my demise
(Cause loving you will be my demise)

If only I
If only I
Could stop myself ahead of time
Keep my feelings to myself tonight
I could spare a heart and save a life
Cause loving you will be my demise

Loving you will be my demise
Loving you will be my demise
Love me lonely leave me to die
Loving you will be my demise
