

Downtown

Daya

I wanna take you to this place downtown
Where the bass so loud
You can't feel your heart beat

I feel it rising from the underground
Let it freak you out
Let it set your heart free

Come and get a little lost for the evening
Heart racing, do you feel it?
I know something bout the thrill you're seeking
If you wanna know
Just lean in

Say you can handle baby let me show ya
A night so good you'll never want another

I wanna take you to this place downtown
Where the bass so loud
You can't feel your heart beat

I feel it rising from the underground
Let it freak you out
Let it set your heart free

Hang up when the morning calls
This sweat is dripping down the walls
Get d-d-dizzy vertigo
I think I'm high on pheromones

Too late to take it slow
I'm dancing like an animal
I think it's time I've headed home
Or not

I wanna take you to this place downtown
Where the bass so loud
You can't feel your heart beat

I feel it rising from the underground
Let it freak you out
Let it set your heart free

Heart, beat
Heart, heart beat
Heart, beat
Heart, beat (I wanna take you)
Heart, heart beat
Heart, beat
Heart, beat
I wanna take you
Heart, beat
Heart, hearty heart beat
Heart, beat
Heart, beat
I wanna take you
