First Time

Daya

I feel my heartbeat, beat, just stopped then it's speeding up
You make my blood rush in like waves with a single touch
We're layin' skin-to-skin, but I can't pull you close enough
So voracious, take me to places

Feeling like the feeling like the first time
Big wide eyes like girls on molly
I could do it I could do it all night
Body melts into your body
We could do it we could do it
Stay up on the way up never wake up
And baby if we ever start to come down
Let's do it how we did it for the first time, first time

First time
First time
First time
Do it how we did it for the
First time
First time
First time

Like when we drank until our lips met on the couch
Doesn't feel the same when I'm holding your body now
Still you're only thing I know I'm really sure about
I know things are changing, but I wanna save this

Feeling like the feeling like the first time
Big wide eyes like girls on molly
I could do it I could do it all night
Body melts into your body
We could do it we could do it
Stay up on the way up never wake up
And baby if we ever start to come down
Let's do it how we did it for the first time, first time

First time
First time
First time
Do it how we did it for the
First time
First time
First time

I want it, I want it
I need it, I need it
The feeling of knowing you're all mine

I want it, I want it
So I'll chase it, I'll chase it
The feeling we had on that first night

Feeling like the feeling like the first time
Big wide eyes like girls on molly
I could do it I could do it all night
Body melts into your body
We could do it we could do it

Stay up on the way up never wake up
And baby if we ever start to come down
Let's do it how we did it for the first time, first time

First time
First time
First time
Do it how we did it for the
First time
First time
First time
