

Infrared

Daya

First in line
Time to put your pride aside
I'll wait for you to break the ice
Tonight

Don't be shy
I can see it in your eyes
Everything you got in mind
Tonight

Would you
Do what I'd do
For you
You

Would you
Show me the true
Colors of you
You

Baby there's a first time for everything
Don't be scared to get uh, get into it
If you wanna let me I'll break you in

We can start with your hands around my neck
Then we'll go til the room turns infrared
I can promise a night you won't forget

Coming clean
Gotta love the honesty
You know that I'm on your team
Mm

On my knees
Pulling you right off the sheets
Baby can you feel the heat?
Mm

Would you
Do what I'd do
For you
You

Baby there's a first time for everything
Don't be scared to get uh, get into it
If you wanna let me I'll break you in

We can start with your hands around my neck
Then we'll go til the room turns infrared
I can promise a night you won't forget
