

## New Romantics

Daya

Why don't you come 'round in the afternoon  
Stay 'till the morning I got nothing to do  
I pretty promise that we won't get bored  
I've got feelings that I can't ignore

After I saw you and the party was dead  
I tried to steal from your burned out friends  
Making small talk should've asked you then  
In my drafts I've got a text to send

We could watch an 80's movie  
Cut the lights and make it moody  
Put your arms around my waist  
Let our bodies fade away

Let's make out to dirty dancing  
Be the latest new romantics  
Hold me close while we escape  
To a world that's far away  
Away from here

Take me, take me, take me away oh take me, take me away from here

I could be your homecoming queen  
Or star player on your favorite team  
Me and you up on the silver screen  
Come on baby don't you ever leave

Can you blame me if I'm paranoid  
Everything I loved has been destroyed  
Maybe you'll be my anomaly  
If I keep you here in 83

We could watch an 80s movie  
Cut the lights and make it moody  
Put your arms around my waist  
Let our bodies fade away

Let's make out to dirty dancing  
Be the latest new romantics  
Hold me close while we escape  
To a world that's a far away  
Away from here

Take me, take me, take me away oh take me, take me away from here

Take me, take me, take me away oh take me, take me away from here
