

Petals

Daya

Petals

Baby 1, 2, 3

Take a piece of me

Petals

Yeah there's more to see

When I slip off these

Petals

If you love me sweet

Then I'm gonna leave

Petals

Petals, yeah

I'll make you wait for it

I'll have you sweating in June

My heart could break for it

The way I'm falling for you

I'll make you wait for it

Just watch me do what I do

I'll go insane for it

The way I'm falling for you

And the sun is coming out

And the summer hits the ground

And I'm lonely in my house

Hear me calling for you now

Cus I want you on my skin

At your touch I'm opening

We don't have to make a sound

But you know I'm counting down

Petals

Baby 1, 2, 3

Take a piece of me

When I slip off these

The way I'm falling for you

Just watch me do what I do

I'll go insane for it

The way I'm falling for you

Oo, the way I'm falling for you

The way I'm falling for you

Oo, the way I'm falling for you

The way I'm falling for you

Love me

Love me not

I know that I won't stop
Til every petal drops
The way I'm falling for you
Love me
Love me not
I know that I won't stop
Til every petal drops
The way I'm falling for you

Love me
Love me not
I know that I won't stop
Til every petal drops
The way I'm falling for you
(Love me
Love me not
I know that I won't stop
Til every petal drops
The way I'm falling for you)
