

Sugar Rush

Daya

Would it be sinful, would it be dangerous
I wanna know what lies inside, live in your fragrance
Keeping it simple, some light entertainment
Fruit made of poison watch me take it no hesitation

Sugar rush
Feel you cutting my cheeks but I still love what you're doing
Candy crush
(Feel it rushing through my veins now)
Feel you stuck in my teeth but I still love what you're doing t
o me

Would it be reckless to put it in practice
Once you get started you know that it's hard to break the habit
Don't be so precious, a tug on your necklace
Give in to the system overload, you won't regret this

Sugar rush
Feel you cutting my cheeks but I still love what you're doing
Candy crush
(Feel it rushing through my veins now)
Feel you stuck in my teeth but I still love what you're doing t
o me
