

I always figured
That I'd be free
Born to a white family

I'm white
Anglo
Saxon and
Protestant
And I ride
Through the night
Concealed in white
By the crosses light

White
Anglo
Saxon and
Protestant
And I ride
Through the night
Concealed in white
By the crosses light

Soon we wont have
To hide it anymore
We can put the
Swastika above our door
We are the
We breed materialism
We the Earth for all our worth
to our last breath
Like the doggie

White
Anglo
Saxon
Protestant
And we'll ride
Through the night
Concealed in white
By the crosses light

They're white
Anglo
Saxon and
Protestant
And they ride
Through the night
Concealed in white
By the crosses light
