Deep End

Dayglow

Alright, I'm fine saying what I knew before
But I can feel beyond the shore
Something pulling me
And by now
Found out that I never knew how to swim
In something I was given
So I let it in

Come take me into the deep end
Show me how to let it go like flowing water
We can go farther
Oh I've made it so much harder than it has to be
'Cause I've gotta want it
And feel like, oh man!
We can go and go and go and go until nothing is
Oh, I'm sure we can
It's coming in phases
It keeps waving, waiting for a small hello

So alright, decide, how long can you hold the weight?
I see you in between those waves crashing over me
And so far, bizarre things are always happening
Infinity below my feet yet I'm dancing

So come on, take me into the deep end
And show me how to let it go like falling water
We can go farther
Oh I've made it so much harder than it has to be
'Cause I've gotta want it
And feel like, oh man!
We can go and go and go and go until nothing ends
Oh, I'm sure we can
It's coming in phases
It keeps waving, waiting for a small hello

So come on, take me into the deep end
And show me how to let it go like falling water
We can go farther
Oh I've made it so much harder than it has to be
'Cause I've gotta want it
And feel like, oh man!
We can go and go and go and go until nothing ends
Oh, I'm sure we can
It's coming in phases
It keeps waving, waiting for a small hello
