

Junior Varsity

Dayglow

Can you see it now?
The changing of the leaves
It's all around us now
As foreign as it seems

Let's celebrate we never made the team
We're in the real world now not junior varsity

Can you feel that change?
Can you feel that change?
Coming around

Oh, it's the same old fish
Swimming in a new sea
And times don't change
But they can surely leave
Oh, everything here
Has pointed you this way
And I see it so clear
It's the reason we were made

Can you feel that change?
Can you feel that change?
Can you feel that change?
Can you feel that change?
Coming around

Can you feel that change?
Can you feel that change?
Coming around
