

## Second Nature

Dayglow

Dancing  
Feeling like myself and now I'm dancing  
Feeling so unstoppable, I know these things are  
Bound to be surrounded in a moment forever on  
You know I feel like it's alright because  
There's something deep inside me you remind me of  
It's not like it's just something, it's alive, and was  
Before I ever knew you here at all

This isn't second nature love  
It's the first thing that comes to my being  
I feel it like I feel it now, because  
The rhythm, it keeps on repeating, it's on and on  
And I feel it so right

(Feel it so right)

Sweet music  
Show me what to do and how to use it  
Oh, all of the time I've loved it  
Only just to find it in an omen already gone  
So tell me everything it's meant to be  
There's music in the moment like a melody  
It's hidden in the way you always sing to me  
I hear it like a song that's always on, on

This isn't second nature love  
It's the first thing that comes to my being  
And I feel it like I feel it now because  
It's the rhythm that keeps on repeating, it's on and on  
I'm feeling so right

Second nature, this isn't second nature  
Second nature, this isn't second nature  
Second nature, this isn't second nature love  
This isn't second nature

Second nature, this isn't second nature  
Second nature, this isn't second nature  
Second nature, this isn't second nature love  
This isn't second nature

Second nature love  
Second nature love  
This isn't second nature love  
Second nature love

Second nature love  
Second nature love  
This isn't second nature love  
Second nature love

Second nature love  
Second nature love  
This isn't second nature love  
Second nature love

Second nature love  
Second nature love  
This isn't second nature love  
Second nature love

Second nature love  
Second nature love  
This isn't second nature love

You know I feel like it's alright because  
There's something deep inside me you remind me of  
It's not like it's just something, it's alive, and was  
Before I ever knew you here at all

Ah, this isn't second nature love  
It's the first thing that comes to my being  
And I feel it like I feel it now because  
It's the rhythm that keeps on repeating, it's on and on  
And I'm feeling so right

Second nature, this isn't second nature  
Second nature, this isn't second nature  
Second nature, this isn't second nature love  
This isn't second nature

Second nature, this isn't second nature  
Second nature, this isn't second nature  
Second nature, this isn't second nature love  
This isn't second nature

Second nature love  
Second nature love  
This isn't second nature love  
Second nature love
