

## Talking To Light

Dayglow

Oh Reagan, I feel it now  
I never know what their talking about  
You know me like a color  
And you take me into the light  
I'd rather know how than how to know why  
You hold me like a mother

Oh we still come around here  
We still talk about all the sound  
Yet somehow you don't try  
It's like talking to light  
I keep trippin' on up  
It makes one from the both of us  
Yet somehow you don't try  
It's like talking to light

And if nothing, something had changed  
I wasn't myself when hearing your name  
One moment can feel like it's forever  
And nobody seemed to be there  
For all that I know, I know that I cared  
I couldn't just put the two together

Oh, you still say it's all good  
I can't cry when I know I should  
Yet somehow you don't try  
It's like we're talking to light  
For all that you do  
It's too good to be never true  
Yet somehow you don't try  
It's like talking to light  
I love you Reagan
