

# Weatherman

Dayglow

I've been changing like the weatherman  
Feel it  
Always talking never proving it  
I never want to say it but I  
Could never be certain  
It could be high for a minute then the sky is falling down  
And nobody comes around

How can you know  
Before it happens?  
Playing along  
How can you know  
When you don't  
At all?  
What if you change your mind?

'Cause I've been going through the motion  
Lately  
Heavy chance of hiding in again  
I never want to say it but I  
Could never be so sure  
There could be rainbows waiting, then suddenly a storm  
When it rains it pours

How can you know  
Before it happens?  
Playing along  
How can you know?  
What if you know  
That you're wrong?

How can you know  
Before it happens?  
Playing along  
How can you know  
When you don't  
At all?
