

I Can Say What I Mean

Days Away

Well this picture's set and it's set in stone
But what do I know?
I'm not the one who's left to choose, it's just you
Maybe I can get around to that later

For right now I'm fine with or without, with or without
Sorry if I sound confusing
I just wish this was a little bit easier

[Chorus]
And I know that I'm alone
But still she lets, lets me go
And I know that I'm alone

Until she let's me go
Till the day I'm fine
So that you gave me the time of day again
To tell me
