

# I Can't Explain

Days N' Daze

Thought this would last forever  
But I've lost that thought  
Along these lonely days  
Lying next to you  
I feel so numb I feel so far away  
I can't explain  
Why I feel this way

So don't break my heart again  
Cause I need back my best friend  
To help me out  
Through the ups and downs  
And love me till the end  
I know this can't be wrong  
I need you to strong  
And don't break my heart again

Though I've strayed away  
I thought we'd never be the same  
But this love is true  
In a hazy world  
It's clear when I'm with you  
I can't explain  
Why I feel this way  
But I'm glad I do  
Cause I love you

So don't break my heart again  
We can make a brand new start  
We'll face the world  
Just me and you  
Not even death will do us part  
Just kiss me again  
Just hold my hand  
I feel safer nowhere  
But buried in your arms

So don't break my heart again  
So don't break my heart again  
So don't break my heart again  
I won't break your heart again
