

Save a Life

Days N' Daze

Save a life, kill a cop
Badges shine while bodies drop
Red and blue lights flood the streets
Highlights another tragedy
You reached for your ID too quick
Now you're just another statistic
Another innocent in a pool of blood
I guarantee that pig'll walk

Better mind your p's and q's
Or Johnny Law will come for you
They're power trippin' terrorists
They feed off your obedience
So perk your ears up, know your rights
Chew your leash off, join the fight
Rid the world of all police
Go out and kill a cop

They don't serve and protect you
They'll kill and neglect you
To them, they're the boot, you're the bug
They don't serve and protect you
They'll kill and neglect you
So go save a life, kill a cop

Oh all these cops
They're all the same
With racist laws and lead starved brains
This nightmare nation
Stole black lives still murder 'em
And our classless dreams
These police should mind what we say
We live for justice
So they must die today

They don't serve and protect you
They'll kill and neglect you
To them, they're the boot, you're the bug
They don't serve and protect you
They'll kill and neglect you
So go save a life, kill a cop

How many more new stories
Do you need to fucking see?
Until you realize that the enemy
Is the murderous police
Sure you can turn a blind eye
'Til it happens to somebody that you love

This problem it's a real one
It affects both you and me
The police are getting out of hand
It don't take much to see
The system that's flawed
Bound to end in catastrophe

They don't serve and protect you

They'll kill and neglect you
To them, they're the boot, you're the bug
They don't serve and protect you
They'll kill and neglect you
So go save a life, kill a cop
