

Waking World

Days N' Daze

Well lately I've been feeling
Like my eyelids weigh too much
Sunlight is my enemy
And this bedpost is my crutch
And as I lay in apathy
Accepting mediocrity
My body loses meaning
And my mind is out of touch

Well if everything is money
And everything is greed
And everyones a liar
All I want to do is sleep
The waking world depresses me
I know I'll never truly be free

Well if no ones really livin'
And no ones havin' fun
And freedom is a fear
We're just burnin' out the sun
Change seems like a waste of time to me

So go

Well they stole away autonomy
My empathy, our sanctity
In double time we'll march up to that house
Take back our liberty
We've been oppressed
For far too long
By fascist with their Marshall law
Your songs of peace do nothing
And your indolence will fuck us all

Well if everything is money
And everything is greed
And everyones a liar
All I want to do is sleep
The waking world depresses me
I know I'll never truly be free

Well if no ones really livin'
And no ones havin' fun
And freedom is a fear
We're just burnin' out the sun
Change seems like a waste of time to me

So go

We're done with being peaceful
We say fuck your protocol
We're seein' red
We want our blood shed
This autocracy will fall
They're felonious foundation
Soon the fallen will arise
We'll rebuild this fucked up nation

Bring their reign to it's demise

Well if everything is money
And everything is greed
And everyones a liar
All I want to do is sleep
The waking world depresses me
I know I'll never truly be free

Well if no ones really livin'
And no ones havin' fun
And freedom is a fear
We're just burnin' out the sun
Change seems like a waste of time to me

So go

So just sleep I'll just sleep
Just sleep
