

Angry Light

Days of the New

I've kept the distance from you all
There's no time, none to waste here, none at all
And I know the difference from our lives
There's no time, none to waste here, none tonight
Yeah... wait for me

Within this you will descend my angry light
In this you will descend my angry light

I've kept the space far in between
There's no one to cry to, no one to lean
I've kept the distance from you all
There's no time, none to waste here, none at all
Yeah... wait for me

Within this you will descend my angry light
In this you will descend my angry light

So now angry light, yeah, we won't fight it here tonight
So now angry light, yeah, we won't fight it here tonight
So now angry light, yeah, we won't fight it here tonight
So now angry light, yeah, we won't fight it here tonight
Angry light!...
