

Place with the Sky

Days of the New

Hello to the world
When the world is me
To look forward to
Are you ready to see?

Yes I wrote you a letter
But I've torn it apart
Yes I guess that I'll tell you
Now that there is your start

So come on, come on
Now get with me
This might be your chance

Come on, come on
Now get with me
It's your chance to run

And I dream of a place where I'm runnin'
Yes I'll take all the chances, I will
And I dream of a place where I'm runnin'
And I'll heal up the place with the sky

Yes we will join in together
To we will take on the world
Yeah your shadows behind you
Yeah you're dancing with ghosts

Throw down your red carpet
And trust what you see
Oh, and your stubborn ass
Is the target for

So come on, come on
Now get with me
This might be your chance

Come on, come on
Now get with me
It's your chance to run

And I dream of a place where I'm runnin'
Yes I'll take all the chances, I will
And I dream of a place where I'm runnin'
And I'll heal up the place with the sky

And I will
And I will
Yes I will
Yeah

And I dream of a place where I'm runnin'
Yes I'll take all the chances, I will
Yes I dream of a place where I'm runnin'
And I'll heal up the place
Heal up the place
Heal up the place

With the sky

And I will

Yes I will

I will

And I will

And I'll heal up the place with the sky

I will
